

s to the or

- myself and my wife have not hired a lawyer to assist us in retaining our positions at the school. Instead we instructed our lawyer because the same Times 'student sources' and associates are thwarting the church leadership's attempts to solve the problems.

And also we have done so for we are of the opinion that the Times 'student sources' and associates came back to the church in another guise. The two came back to the church under the pretext of reconciliation to thwart the distinct role of our church. Moreover one of them is a South African citizen and it has possible he has come back to the church to avoid deportation.

Thus, given the other side of the problems at the Paulinum, I challenge The Times 'student sources' and associates to identify themselves and to take note that their diabolic attempts would not go unchallenged.

Note: This letter has been shortened. - Ed.

I went for further studies in India for one year. From there I was sent to the Federal Republic of Germany for a course sponsored by the Otto Benecke Foundation for three years in radio and electronics engineering. It was difficult however, to get work experience in foreign countries. In Zambia it was not possible due to financial problems; in India it was due to the short time of the contract; and in Germany it was due to the fact that many radio broadcast houses belong to private companies and those companies did not support Swapo, and apparently did not want to accommodate Swapo members in 'sensitive' areas such as broadcasting.

I remember when we asked our programme coordinator to arrange an attachment in Germany, he said it was difficult to get attachments for people regarded as 'terrorists'. He failed to get a permanent attachment and only succeeded in a short period of time at a small radio studio.

Since we came back to Namibia in 1989 as part of the repatriation process, we have

failed to get jobs at the NBC. We have made many contacts with NBC personnel officers, and completed application forms with copies of our certificates and cv's, but all in vain.

In 1990 I contact the Ministry of Information and was told that the Ministry did not recruit people but that this would have to be done directly through the NBC.

I would like to appeal to the Minister to take this matter up. Perhaps he could exert pressure on the NBC to consider already-trained returnees for jobs at the Corporation, rather than appoint new people.

Last year there were several bursaries sponsored by the NBC and there were many newly-recruited people involved whereby they were registered for different courses. When the time came for the course, many of our names were cancelled or omitted. How does this happen? If there are no vacancies in NBC, why are new people being recruited?

Everyone needs bread for his or her survival so that we can live in peace and harmony in independent Namibia.

Returnee goods

I AM one of the returnees who came from the former GDR last August 1990 with the children.

The RRR promised us that

Jobs at NBC

I would like to air my grievances concerning job opportunities at the NBC and I want to confirm the statement made by Kakedi ka Nangula in The Namibian dated May 13 in which it was said that outside-trained broadcasters are most affected by the policy of national reconciliation.

I am a Namibian returnee and I have trained in radio studio broadcasting engineering in Zambia at Ndola for two years.
