

'White' peace

I DIRECT this letter to all black 'makakunyas' throughout Namibia. In everyday propaganda they are made out to be angels who tell us that 'we will win and Swapo will soon die'.

Are these men South Africans or Namibians? And why do Namibians join these troublemakers and delayers of independence?

PLAN says it aims to free Namibia. What are the aims of the 'makakunyas'? Are they trying to protect the status quo?

You are turned by the whites into a 'good fighting machine', but don't you realise you are killing your own nation?

Why are white families living in peace in their towns? Is it because they are recognised as masters of this country? Why are black brothers not in the same position?

Is the status quo not brought about by apartheid? 'Makakunyas', you are fighting for neo-colonialism.
