

No to elections

MANY TIMES I have heard over the radio and read in newspapers that the South African Government is calling for ethnic elections in Namibia.

I want to use this opportunity to call on the people of Namibia not to accept these ethnic elections. We want the implementation of UN Resolution 435 and the chance for the people of Namibia to choose their own leaders. We want equality for all and an end to discrimination.

What will happen if ethnic elections are held in Namibia? There will be no change, apartheid will continue, Koevoet will continue with their activities.

People of Namibia: let us unite more than ever to fight against the system imposed by Pretoria and to stand behind one leader, Sam Nujoma, to fight for equality, peace and justice for the people of Namibia.

I salute those who have already said no to ethnic elections.
