

ecutive committee, that we are very proud of the job they do so properly.

As far as fans are concerned we know you have to defend your title in the memorial JPS knockout tournament in the finals against Blue Waters very soon. We anxiously look forward to October 4 and we will definitely support you during the match. That is our contribution to your victory. We know you deserve it too.

A loss for you is an injury to us and a victory for you is a joy for us. I am sure that the sponsors of the tournament are proud of you too.

Just an extra plea to the executive committee: would you organise a function for this specific weekend in which the spirit could be built up for the holders of the JPS title? I am sure most BA fans would support my proposal.

Good luck to the team and the coach, Vossie.

## Saluting Ponghofi

I WOULD like to air my views on the so-called leaders of Uukwanyama's recent call for army reinforcement in the region.

In the first place, I would like to salute my comrades, fellow students of Ponghofi Secondary School, who called upon the SADF to withdraw from the region, in particular the Ovambo Administration and many other victims of the racist Pretoria regime.

In the second place I would like to inform Messrs Kwautima, Dan and Nghihulifwa and their disciples in the region that we want freedom and not an extension and intensification of oppression and victimisation as is the case in the north presently. If Mr

Kwautima genuinely wants freedom and security then he should fight for the implementation of Resolution 435.

It seems that the men in question do not know what Resolution 435 is. They simply believe that Koevoet will bring stability in the region.

If Kwautima, Nghihulifwa and their followers cannot exist without the army and Koevoet, then they should go together with them, and leave Namibians in peace.

Kwautima claimed over Radio Owambo that even Chief Mandume had soldiers. This may be, but Mandume did not fight his fellow Namibians but fought the same colonialism which we Namibians are fighting against today. How can Kwautima compare himself with a man like Mandume?

Whatever Kwautima does, he and his followers will never win the people's hearts and minds. Students of Ponghofi, you must not be intimidated by these people. You must not surrender your attitude of resistance to the SADF. We are all with you and behind you.

We shall not be intimidated by South African surrogates and their puppets. The army and Koevoet must pack up and go.
