

On the sons in 101

South Africa, please tell us where are our children you took with you into a foreign country in 101 Battalion?

You fooled us and our sons in that they thought they were going to protect Namibia's borders from communist in-

filtration. But we, the parents, found out that you took them beyond our northern border, about 200 kilometres inside Angola.

Why did you do that while you knew very well that Angola is a free and independent country which has never threatened Namibia?

Also be honest and tell us now what you actually want in the People's Republic of Angola.

Are you not satisfied with the unlawfull and illegal detention, the rape, the killing of innocent Namibians and the destruction of their land and property?

What else do you want? What other sacrifices are to be made by the African people, whose only desire is freedom and justice?

We, the parents of those serving in 101 Battalion are now tired of mourning for our dead sons who you, South Africa, took to Mavinga. We are also tired of your empty and false promises of compensation.

Just pack up and leave Namibians in peace.
