

# **We hate the war**

**WE ARE** tired of the war and longing for a free Namibia, where peace and order, equality and self-determination, will be the order of the day.

How can Swapo be blamed in connection with the Oshakati bomb? I am one of those who have lost family members in the Oshakati bomb blast, but I do not believe Swapo was responsible.

What we want is that the politically-hungry Mr Moses Katjiuongua and Andreas Shipanga and others, stop blaming Swapo for the Oshakati bomb. And let them hear this.

We don't hate anyone; what we hate is the war which is among us; and what we want is for the war to come to an end and the implementation of 435 now.
