

Marching for Africa

PLEASE allow me to invite interested Africans to march together for Africa.

AfricaWise, founded by Africans who want to do something for Africa, was established to create Africa awareness among Africans wherever they may be in Africa and the world.

Therefore, all willingly African people in Na-

mibia, in Africa and the Diaspora are invited to a long peaceful march for Africa, for unity, peace and love in Africa.

Although a petition calling for an "End to all conflicts on African soil,

An appeal for faster unity among African nations and the return of people of African ancestry from the Diaspora back to

Africa" will be signed. The march is not political, religious or anti-government, but is about bringing together different African people to march together for Africa.

The march will take place on Sunday, 29 February, starting at 18h00 from the Katutura Community Arts Centre (KCAC) and marching all the way to the

Parliament Gardens.

Bring along your African flags, dresses, arts, self-written posters or whatever is African?

All Africans who want to do something for Africa are invited and welcome.
