

# **UN and alcohol**

**I WOULD like to call on Namibian patriots to take up full responsibility and refrain from encouraging Untag personnel to drink, because this is preventing them from carrying out their duties.**

**If Untag has come to Namibia to keep the peace, I wonder how they can achieve this if many of them are often drunk. In many cases too they are after women, as if this is also their responsibility.**

**Please UN representatives, see to it that your personnel are told to adhere to what they have been brought here for.**
