

Works on GRN

THE letter entitled 'GRN abuses' by Angry Taxpayer from Oshakati in your paper of May 13 refers.

The Government Garage established that the vehicle GRN 3554 is assigned to the Ministry of Transport, while vehicle GRN 7602 belongs to the Ministry of Health and Social Services. It is the officers in charge of these Ministries/Departments that will have to answer on the charges of vehicle abuse of their officials.

The Department of Transport informed me already that they are investigating the case and will soon provide an answer.

The trips in question would have had to be authorised before they were undertaken. Private property other than a few personal items required for the trip are not normally allowed and would also require authorisation. Let the Ministries/Departments concerned state what they authorised and what disciplinary steps they will undertake against the driv-

ers in case there was no authorisation.

Wanaheda woes

An open letter to
Minister of Education

WE teachers at Wanaheda Roman Catholic School would like to appeal to you to help and save us from the situation in which we find ourselves.

We have taught here from January to April 30 1993. Our leaders at the school have tried on many occasions to discuss school problems with the officials from the Ministry. At the start of the discussion there was hope that the Ministry would help or take over the school.

Later we were disappointed to hear that next term the Ministry will divide up the students in the school and send them to other schools in Windhoek. Teachers will find themselves on the streets again. There is not enough money to pay the teachers' salaries.
