

# **Peace not bullets**

ALLOW me to inform you that everybody says they want peace not bullets in southern Africa. But words are not enough. Action and Resolution 435 are needed urgently.

Racist South Africa is primarily to blame for the havoc in the region of Namibia. Let South Africa withdraw from Namibia. They must stop supporting Unita bandits. And the gang of puppets, the so-called Swapo-D, Canu, DTA etc and South Africa must cancel all apartheid laws. We need peace not bullets from racist South Africa.

I do not promise a perfect peace after all of these things are done, but some major problems will have been eradicated.
