

Stop Zionist Terrorism

THE international campaign against terrorism should also target Zionism. We in the Palestine Support Committee (Namibia) believe that the Zionist rulers of Israel are not interested in peace in the Middle East.

Zionism is inherently an aggressive and expansionist movement. Zionism uses the dependence of American imperialism on oil to its own advantage and therefore countries with the pogroms against the Palestinian people. Israel is a sub-imperialist outpost for American interests. For American imperialism, oil is more valuable than Arab blood. That is why we say: No blood for oil!

The ordinary men and women of Israel are not our enemies, but the Zionist rulers certainly are guilty of crimes against humanity. All Jewish people are not Zionists. It is a fabrication to equate anti-Semitism with anti-Zionism because Arabs are also Semites.

This confabulation attempts to divert attention away from the legitimate struggle of the Palestinian peo-

ple. We do not support anti-Semitism or the oppression of Jewish people. We are against Zionism and we are in support of Palestinian self-determination.

How many people know that South Africa was the second choice for setting up a Zionist state after the Second World War? Indeed, southern Africa would have been a very different place today if this had happened.

So, perhaps for this reason, people in southern Africa need to have a special commitment to the Palestinian issue because it could have been some of us being terrorised by Zionism like that.

Where is the moral outrage when Palestinians are killed in their hundreds and thousands?

The rulers of the world have a selective morality. The state of Israel must be replaced by a secular Palestinian state in which Arab and Jew live together in peace. The struggle against Zionist terrorism must be led by the Palestinian working class. Forward to a secular Palestine.
