

An open letter to Mr Dirk Mudge

TO introduce myself, I am a 'Boertjie', born in the south of Namibia where the majority of super-duper Afrikaners live.

Mr Mudge, is what the people say, true: namely, that you as the crown prince of the SWA National Party's apartheid regime at the time of the Turnhalle, was called upon by Pretoria to form the super-apartheid-alliance, called the DTA, and then to do away with petty apartheid so as to prevent a total oil embargo on South Africa; then to form your all-white party, called the Republican Party? (At that time all this was done in the interest of South Africa). The people say that you served Pretoria well - their wish was (and is) your command. They say that, at the time, nobody except Swapo and the United Nations were really serious re the independence of Namibia, and they say that only Swapo was prepared to fight for the independence of Namibia.

Is it true, Mr Mudge, that up to this day, you kept your Republican Party a super-duper apartheid-party by closing the party's doors to other than whites, and that this was the reason why Mr Kalangula left the DTA?

Is it not true that the DTA, similar to AG 8, is super-apartheid in accordance with the wishes of the masters across the Orange River?

Am I wrong in saying that, in 1948, the Nats, of which you were at that time a supporter, won the election *inter alia* by telling the whites how the blacks would rape their women and marry their daughters if they did not vote for them, so frightening the hell out of the whites and scaring them to death?

Am I wrong if I say that the DTA and Company are telling the same sort and other unjust lies re Swapo, hoping they can likewise win a majority in the coming election, which of course would make Pretoria very

Letters to the Editor

happy?

Is it not true that 90 percent of the votes which the DTA will draw, will come from our non-white fellow-countrymen? Do you think that they will then, after they gave your Alliance the majority vote, take a back seat, like in the past, when the Pretoria regime gave the DTA and the puppets the driver and the front seats on the puppet train? No, Mr Mudge, unless I am wrong, you won't even be in the guard's van! If the DTA should win, we shall still have a non-white government which, if the DTA's lies re Swapo were true, will still land us in the same boat.

Am I wrong, Mr Mudge, in believing that the DTA will not lift a finger to get Walvis Bay as OUR harbour, even be it only for the sake of justice and fairness (because Pretoria won't like it, as they will then not be under our blanket from where they could practically control our economy and easily start disinvesting against a regime in Namibia which do not favour their pleasure - did not the State President of South Africa already threaten to do so?)

Am I wrong if I say that you will not lift a finger to introduce our own currency and rid us of the valueless rand, which was born out of hatred of the English and to please the apartheid-syndrome at the time of the visions?

Am I wrong, Mr Mudge, if I say that South Africa is financing the DTA in the coming election and that, if the DTA should win the election,

South Africa will tell you and the DTA that you owe them, that you must now brush your teeth and sing (which means back to square one - serve the masters faithfully)?

Mr Mudge, I beg of you, don't let the DTA toy and ghost us with thumb-sucking stories and by doing so, also try to frighten the hell out of us. Let us rather have the facts re the DTA's principles and policy on how the DTA intends ruling Namibia and guiding us to peace and stability in order to take our rightful place in the world. Please, I ask this of you and the DTA for the well-being of the children of Namibia, and to help us make the right decision.

Mr Mudge, if it pleases you, I still have questions to ask, because I want clarity before I decide for whom to vote - Swapo or the DTA.

Therefore, do me the honour to answer my questions through The Namibian, because I prefer to communicate in our future official language (or will it be Afrikaans if the DTA wins?)

BOERTJIE
WINDHOEK
NAMIBIA

A Namibian choice

A MAIN oppressor of black Namibians was and still is, a racist colonial society which allows and supports the system of labour exploitation. A system which kept the door to paradise open for whites and the door to hell open for blacks. These two doors will soon shut forever if
