

Fix The Fence

THE incidents currently reported in The Namibian of November 9 about law and order violations in Ohangwena region are extremely saddening. Today it is Ohangwena region. Tomorrow will be Erongo region, Kunene region, Omu-sati or elsewhere. Criminals are committing espionage activities in order to destabilise peace in our independent republic of Namibia.

In the past our government set up the border fence between Angola and Namibia. The fence was subsequently vandalised and no punitive measures were taken against those who did it. The issue of vandalising the border fence has enabled the illegal activities to increase with maximum rate. And again makes it very hard for our law enforcement units to root out these activities in time. I urge the authorities to restore a powerful border fence with specified entry points.

CONCERNED CITIZEN, WINDHOEK
