

will benefit from the knowledge of rugby-playing Australians who are here with Untag.

I would like to conclude with the words of a Khomasdal College of Education student: if you discriminate against my religion, I can change it; if you discriminate against my politics, I can also change; but if you discriminate against the colour of my skin - that I cannot change.

Viva non-racial sport.

## **Untag understrength**

THIS letter was drafted for Untag attention by the residents of northern Namibia. The following are points in the letter:

1. Restrict all SA forces to base. With Plan fighters beyond the 16th parallel, Untag must see to it that SWATF and SADF are disbanded. If Plan combatants are beyond the 16th parallel, Untag must confine the SA forces to Oshivelo and Grootfontein as stipulated in 435. We may not be wrong in presuming Untag is understrength and there is an obvious threat to 'free and fair' elections.

2. Is Resolution 435 a secret deal

between Pienaar and Ahtisaari? We want to hear from them regarding recent investigations by Untag at Oshikuku. All investigations into atrocities should be known to the public. On April 30, security forces came out of bases and intimidated people, tearing down NUNW placards. Letting the SADF from confinement doesn't give peace a chance.

3. Residents are compelled to put on DTA T-shirts and give DTA signs. What about democracy?

4. Residents here are threatened if they demonstrate the black power salute.

5. We need more Untag offices in the north to facilitate contact by civilians. In this way contact with Untag could be made easier.

6. Untag lacks contact with residents - they should talk freely to them and this would solve immediate problems.

We call upon Untag to improve and fulfill its responsible task.

## **Check the IDs**

THIS is an urgent plea to the Special Representative of the UN and it comes from a concerned Namibia. I
