

Unchain our brain

IF we have all unchained our brains, then let us be vigilant and recognise what our ancestors have done. Let us unite, because we know that through unity we are able to maintain our independence.

We must not all our brains to be chained, and we should rather liberate our motherland/

I appeal to all in this country, including stooges, to unchain their brains and liberate Namibia. We want the maintenance of human rights, freedom, equality and adequate education.

We want to do away with the system of apartheid, and bury it where it can never be found again.

It is clear that 'there was never a good war or a bad peace', yet it is better to die on one's feet than live on one's kneews.

We all know that apartheid is like Aids in Namibia: our people have died and are dying because of this disease.

I hope that in the course of 1989 we can achieve our independence, shake off colonialism, and bring about a Swapo Government under Sam Nujoma. I want Mr Nujoma to govern the whole of Namibia including Walvis Bay. Without the inclusion of Walvis Bay, Namibia cannot be independent.

I call on those Namibians who have been collaborating, to drop the South African government and its police forces and join the national movement, Swapo.

We must give full support to Swapo, because Swapo is the people of Namibia and the people are Swapo.
