

# Disunity is the cause of balkanisation

**FOR HOW** much longer can we live under South African colonialism which is a 'crime against humanity?'

Namibia is the inheritance of Namibians, and we are Namibians and not South Africans.

The South African Government has failed to fulfill its promises to build Namibia and to give it back to the legitimate citizens of the country. They took Namibia and then devised an ideology among the Namibian community: let us divide them and rule them because they are slow thinkers.

I want to remind Namibians that

we are one, and that we should not allow ourselves to be divided by a foreign force.

The ideology of divide and rule is created to bring about misunderstandings, disunity, hostility and all kinds of evil among the black people.

Namibians let us stand up for peace, justice and equal rights. Do not fear, because fear is betrayal. Our struggle is a just struggle. The working men of all progressive and peace-loving countries are behind us. As long as we remain disunited, so we will remain balkanised, both regionally and territorially.

If we turn our backs on the problems facing our society, who is going to blot out these evil and diabolic things perpetrated against Namibians?

It is self evident that South Africa considers that the black people of Namibia should be used and not respected. The Multi-Party Conference was created to delay the independence of our country. Today this group claims to stand for 'goodwill and reconciliation' and claim they have committed themselves to human rights.

The question is, what happened

on June 17 this year? Was it not the MPC who sent Koevoet in against their own people? The MPC leaders are not fighting for the independence of this country. They are fighting for their own benefit.

Today our people are losing their lives in the north. Where are the MPC? Our people are being detained without trial. Where is Mr Kozonguizi, the Minister of Justice?

The MPC are not serious about the independence of Namibia. They also know they do not have the mandate of the Namibian people. They

are not representing Namibians, but the South African Government.

They know that the people will not elect them, which is why they do not want the implementation of Resolution 435.

In the final analysis, the masses are the final arbiter. There is one power which no force of arms can overcome and that is the determination of the people.
