

Colonising ourself

ALLOW me to air my opinion that we the Namibians, are guilty of colonising ourselves, especially in the far north of Namibia.

Students who pass matric with good symbols are unable to find jobs. Often only those from rich families are considered, while those from poor families are turned down. Employers sometimes only give jobs to those well-known names from rich families.

It happens in the hospitals as well. On many occasions only those who are well known in the hospital circles can be immediately hospitalised if they are ill or sick, while many poor people stand for a long time before they get treated.

I wish to call for an end to this sort of discrimination. Namibians should do their duty as Namibians and implement equality among themselves in order to achieve peace. Stop this manner of colonising your own people.
