

# **Release Angula**

We urgently call upon the South African Government to release comrade Jason Angula, whom they have detained since October 6, 1987.

We, who are his close friends and comrades, strongly condemn the cowardly action by the racist and illegal Pretoria regime for creating inhuman laws which provide for continued detention without trial of peace-loving Namibians.

We strongly condemn Pretoria's oppressive policies and demand that the regime withdraw from Namibia.

Let the racists also know that such actions will never make us abandon the struggle or even intimidate us, because we are proud of Jason Angula as one of our true leaders.
