

Luanda Wants Peace

THE Embassy of the Republic of Angola in the Republic of Namibia, noted with pre-occupation some inaccuracy concerning the article in your newspaper dated 06 November 1998, with a heading "Angola wants to scrap the Lusaka peace accords", in which you have cited the Deputy Minister of territorial administration, General Higine Carneire as saying that Angola wants to annul the peace accords.

Contrary to that, the government of Unity and National reconciliation, an outcome of the Lusaka protocol, in action since 11 April 1997, constituted by members of various political parties including Unita, wants to conclude the peace process because of the lack of cooperation and will from the military wing of Unita and its leader in particular.

However, we inform you about this, in order for you to understand the problem correctly.
