

# **Praise for them**

I WOULD like to praise Professor Lombard and Mrs Parkhouse and others for their courage in meeting with the Swapo leadership in Lusaka at the 10th anniversary of UNIN.

They have showed us that there are some whites who want to see Namibia freed from South African occupation. They have also set an example to other whites, to show where they stand in the struggle towards a non-oppressive and non-exploitative, free Namibia.

I would personally like to call upon the white majority to stand up and join the struggle in order to gain independence for Namibia.

Let us unite: black and white and not allow ourselves to be misled by the evil forces which try to undermine the struggle of peaceloving Namibians towards freedom.
