

# **Namibia message**

**WE**, the participants in a fast for the SADF to be withdrawn from Namibia, send warm greetings to all Namibians.

Our fast has been part of the End Conscription Campaign's **Apartheid Out - SADF Out** campaign. The fast began on August 3 and ended on Namibia Day, August 26. Some of us have fasted for one day of this period, others for longer and some for the entire three and a half weeks.

We have been praying for the SADF to leave your country because we are deeply concerned about the repressive role it is playing there. Some of us have visited Namibia and seen for ourselves, others of us have had the opportunity of meeting some of you and hearing about your own experiences.

We have been praying and fasting because we have wanted to show our care, concern and support for you, Namibians, in a concrete and practical way.

□ To the South African Government, whose forces are illegally occupying your country, we say, hear the cry of the majority of Namibians. Show your sincerity in wanting an end to the war and establishing a truly just peace by lifting the curfew, withdrawing the occupying SADF forces and moving towards a swift implementation of Resolution 435. We all know that this is what will end this wasteful and unnecessary war and that this is the solution which most Namibians want, so why are we waiting?

□ To you, Namibians, we say, we share your longings and frustrations and commit ourselves to continue to pray, fast and work until the SADF is withdrawn from your country and until your inalienable right to be free has been achieved.
