

Lutheran prayers

I AM moved to prayer and action every time I read about the Namibian struggle for independence, peace and justice. Please know that I and many other Americans are watching the developments in Namibia closely. We pray for your freedom and for a peaceful Namibia. Many of us are calling and writing letters to the United Nations and US Government officials to ensure the safety of Namibians.

Thanks to The Namibian for providing Namibians and the whole world with vigorously researched stories that shed light on the truth.
