

Who's killing?

Please allow me to say something in the newspaper which does not conceal the truth.

On 22-7-1987, the chairman of a parliamentary group in London, Mr Nicolas Winterton, spoke over the colonial Radio Owambo, and expressed dissatisfaction with the bomb explosion in Windhoek a few weeks ago. He said that the Swapo office in London should be closed down because that organization did a bad thing by planting the bomb.

Mr Winterton I want to know whether you have certainty that the bomb was in fact planted by Swapo. Real proof is what I need.

Mr Winterton, you say that you are are feeling bad about the bomb in which no one lost their lives, and already you want the office of Namibia's true freedom fighters to be closed down. A real pity.

In the meanwhile you ignore the despicable misdeeds which are being committed by South Africa. For example, Mrs Alina Shilongo's house which was destroyed by South Africa's Casspirs on 3-7-1987. That was the house of an aged woman of 80 years. Should it have been your grandmother, what would you say?. Give an answer to that. Of course you are not feeling any disquiet because her skin is black.

Winterton, neither you nor South Africa's apartheid is wanted here in Namibia.

You must be happy about what your friend, South Africa, has done by shooting and killing an innocent schoolgirl. (Laina Taapopi, 8-7-1987).

And now you are saying that Swapo has committed a misdeed, and its offices in London should be closed.

In that case, would you ask that South Africa's 'offices' be closed down in Namibia? Should they close because of what is happening here? Or is your boss South Africa doing good in Namibia?

Winterton, when you say that you

of what is happening here? Or is your boss South Africa doing good in Namibia?

Winterton, when you say that you feel pity about Swapo because it does not enjoy majority support from us Namibians, you are lying completely. We Namibians have a high regard for Swapo as the organization which is challenging South Africa, and which wants Resolution 435 to be implemented, and the withdrawal of South Africa from Namibia.

We want true independence, and not the many little groups which are being founded by Dirk Mudge and South Africa, and which are there only to further colonize the Namibians.

Mr Andreas Shipanga, look how the northern part of Namibia is being made to suffer by South Africa for whom you are working. How do you feel when you and Dirk Mudge, travelling in a Mercedes Benz going to Owambo, at the Oshivelo gate you are required to show your 'kop-kaart' because you might be a terrorist? Is that the independence you want or is there any apartheid that you and Mr Moses Katjioungua have removed?

Put Resolution 435 into operation because we do not want colonization and Dirk Mudge. Also we do not want Shipanga and Katjioungua's talks. We want the true leaders of this beloved country. Mr P W Botha: take away your destructive forces and leave Namibia, we dont need you. We want peace and equality for all and no discrimination.
