## The people's leader

Who is the genuine people's leader/  
Since the heyday of Pretoria's regime in Namibia has left a disgraceful page in the Namibian history by dividing the entire nation into regional groups during its heavy destruction and brutalization, peace-thirsty Namibian people have been waiting for the true leader to bring about the total eradication of foreign domination and oppression in their only and one Namibia.

As the days of independence approach, here comes the question; Who is the genuine people's leader?

In order to avoid neo-colonialism and corrupt leaders in the Namibian history, the peace-thirsty Namibian people with loyalty and fidelity entrust the respected great leader president, Sam Nujoma, who heroically and patriotically succeeded in leading the struggling people of Namibia in their long and hot struggle against the Pretoria racist regime and its

allies of the entire capitalist block for almost 29 years. In this way, the respected great leader President Nujoma has achieved a great respect among the Namibian people, as well as internationally.

The Namibian people acclaim the SWAPO great leader president Sam Nujoma as their genuine people's leader who will create the new state of Namibia with prosperity, peace, democracy, national security, justice and social economics.

Therefore, the nation is being called upon to be vigilant and unite as one nation to stand firmly against the enemy's anti-SWAPO psychological propaganda which is being presently carried out by the so-called security force so that they can mislead the people from choosing their genuine people's leader because they are afraid of SWAPO'S inevitable victory in the forthcoming elections.

In spite of the enemy propaganda, I am appealing to the entire Namibian nation for each and every individual to cast his/her vote for SWAPO in

the forthcoming elections in order to enable the people's organisation to score more than the two-thirds majority of the Namibian population so that we can create a new Namibia in which each and every Namibian citizen will enjoy the fundamental human rights and lead a happy life free from oppression, exploitation and injustice under the leadership of the genuine people's leader president Sam Nujoma.

SWAPO is the people and the people are SWAPO.

## Ahtisaari has failed

Forces making for dividing the UN Special Representative, Mr Marthi Ahtisaari, Margaret Thatcher, South Africa, DTA, Koevoet and Action Contra Res 435 have become forces who want to divide the Namibians for freedom, love, peace and unity.

Ahtisaari has failed in his mission, like Dr Ercher, the Vice Secretary General of Kurt Waldheim in 1973. Because the ends he served will take him no further than himself.

It is SWAPO's deep conviction that all the people wish to be free and that their desire for freedom is rooted
