

Falcon's not a taxi

ALLOW me to answer DTA President Mishake Muyongo on his two questions as to whether Swapo has fulfilled the promises it made in 1989 and how many people have used the Falcon jet?

Of course Swapo fulfilled its promises. We are now living in better housing, have better communication facilities, better education, better healthcare and Swapo has also reduced the unemployment rate. We are now living in peace, no more 'makakunyas' destroying our maize fields and beating up people and Swapo has buried apartheid forever.

With regard the jet, how many peo-

ple does Mr Muyongo feel should have used it? Does he want everyone to use it? The Falcon is not a taxi but transport for the President and his Ministers.

I strongly believe people will not vote DTA and that they will lose the forthcoming elections with no single seat in Parliament.

President Nujoma should not concern himself about the DTA in the coming elections. Swapo will make sure he rules this country for the rest of his life.
