

Rambo Reagan

I AM shocked by the way President Ronald Reagan is treating us. We are exposed to police brutality and harassment in Namibia but our outcries seem to have no impression on Rambo.

Our comrades are detained for long periods without trial, others disappear, and some are killed by 'stray' bullets.

Many of our brothers and sisters

went into self-exile, sick and tired of the apartheid policy. But only Swapo is accused of terrorism.

President Reagan and his followers should know that sanctions against South Africa means a lot to us. He should know that the key to the liberation of this country lies in his hands. He must drop his capitalistic ideas and negotiate with the South African Government in order to accelerate the implement of Resolution 435.

South Africa and its puppets should know that as long as there is no free election in this country, there will be no unity or peace here. South Africa should also stop its interference in Angolan matters and withdraw its forces from Angolan and Namibian soil.

I would like to tell our brothers that we should stop killing and discriminating against one another and unite in order to facilitate the goal of freedom.
