
Fight apartheid

WE MUST fight against apartheid and try and liberate ourselves. We know that it is a long struggle but we cannot give up.

The efforts of the South African Government are geared towards

uplifting the 'leaders', and not the suffering people of Namibia.

Their second object is to destroy the credibility of groups such as Swapo and Swanu of Mr K Kanguuchi.

I have had enough of this government and I want real independence for Namibia which will bring peace and justice for all.

I thank The Namibian, Swapo and Swanu of Kanguuchi for their patience, and for the encouragement they have given me to stand together and fight for our Namibia.

Secondly I thank the people of Oruvanda and others who laid down their lives so that a free Namibia may be realised.
